TD4.3. Walking Insights: Evaluating Experience and Impact

14:00 - 15:30 Wednesday, 8th October, 2025 | Location: Mustard cube

This session highlights innovative ways to understand and evaluate walking, from digital tools that plan multi-user routes to design strategies that turn theory into practice. Case studies explore how reclaiming public space can shift from temporary actions to long-term transformation, and how soundscapes shape pedestrian experience. Speakers from Italy, Türkiye and Albania reveal the diverse methods being used to capture the impact of walking.

Presentation Type

Topical Discussions are a set of oral presentations in a moderated session to illuminate different perspectives and experiences on the same topic. The presentations will provide the framework for the subsequent discussion and debate.

Your session is scheduled as indicated in the [programme](#).

Session length: 90 minutes.
